- Holland Capital Management LLC claims compliance with the Global Investment Performance Standards (GIPS[®]) and has prepared and presented this report in compliance with the GIPS standards. Holland Capital Management has been independently verified for the period January 1, 1992 through September 30, 2014. Verification assesses whether (1) the firm has complied with all composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Large Cap Growth Equity composite has been examined for the period January 1, 1992 through September 30, 2014. The verification and performance examination reports are available upon request.
- Holland Capital Management LLC is an independent investment advisor registered under the Investment Advisors Act of 1940, was founded in 1991, and manages large cap growth equity and mid cap growth equity strategies.
- The Large Cap Growth Equity composite is comprised of institutional portfolios invested in equities with market capitalization of \$1 billion or more that are traded on U.S. exchanges. The goal of the strategy is the long-term growth of capital.
- The Large Cap Growth Equity composite was created January 1, 1992. A list of composite descriptions is available upon request.
- All returns are in U.S. dollars. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
- The Russell 1000 Growth Index returns are provided to represent the investment environment existing during the time periods shown. For comparison purposes, the index is fully invested and includes the reinvestment of income. The returns for the index do not include any trading costs, management fees or other costs. Index returns have been taken from published sources. Indexes are unmanaged and cannot be invested in directly.
- Returns are presented gross and net of management and performance based fees and include the reinvestment of all income. Net of fee performance was calculated using actual management and performance based fees.
- Most management fee arrangements that Holland Capital has entered into are asset-based. However, we do offer performance-based fee arrangements, which is compensation that is based on a share of capital gains on or capital appreciation of the assets of a client. Both asset-based and performance-based fees and account minimums are negotiable based upon a number of factors including responsibilities involved, type of relationship, account or groups of accounts which are expected to have significant capital additions in the future, or other special characteristics, size of account, etc. Under certain circumstances, receipt of performance-based compensation may be subject to client specified benchmarks. The standard fee schedule is 0.85% on the first \$5 million; 0.75% on next \$5 million; 0.65% on next \$15 million; 0.50% on next \$25 million; 0.40% on remainder.
- The dispersion is measured by the asset-weighted standard deviation of annual returns of those portfolios that are included in the composite for the full year.
- At December 31, 2014 the three-year annualized ex-post standard deviation of the composite and the benchmark are 10.30% and 9.59%, respectively. At December 31, 2013 the three-year annualized ex-post standard deviation of the composite and the benchmark are 12.53% and 12.18%, respectively. At December 31, 2012 the three-year annualized ex-post standard deviation of the composite and the benchmark are 15.00% and 15.66%, respectively. December 31, 2011 the three-year annualized ex-post standard deviation of the composite and the benchmark are 17.00% and 17.76%, respectively.
- Past performance is not indicative of future results.
